

## Reference Letter

We can hereby confirm that company Lukromtel s.r.o., Československej armády 198/31, 967 01 Kremnica, Slovak republic is our subcontractor for drive test measurements of our network. Our cooperation started in 2005. They are performing regular drive test measurements of our network in whole country and also special measurement if it is required. They are doing measurements for our GSM and UMTS networks.

The Lukromtel s.r.o. is performing their work to our very satisfaction. They provide measurements results in a high level of quality. The cars used for measurements are dedicated only for these purposes. The measurements are performed by experienced technicians. Our satisfaction with this company was declared by new extension of contract.

Should the personal confirmation of the above mentioned be needed, I am at disposal to whoever may be interested.
